HUNDREDS DROWNED. CELESTIALS CAUGHT.

Numerous Fatalities as Result of Floods In Mexico.

WATER SIXTY FEET SCHOONER IS SEIZED

It Has Been a Long Time Since the Western Portion of That Republic Has Had Such Tremendous Floods.

City of Mexico, Oct. 10.—Recently floods in the southern part of the state of Jalisco and in the state of Colima resulted in great destruction of property and loss of life. The number of fatalities from drowning along the line of the Manzanillo extension of the Mexican Central railway is 123. Thousands of tons of earth and rocks descended in great landslides from the mountains. The new steel railway bridge below the Tuxpan was destroyed, and a steam shovel, weighing twenty-six tons, was borne by the torrent for a considerable distance. In one place the water rose sixty feet. Many houses were destroyed by floods in the towns of Tuxpan and Zapotillo.

Twenty-five were lost during the recent floods in the Santiago river. Fifteen were drowned by the capsizing of a boat while crossing the river. They were workmen engaged on the canal being constructed for the power plant. All were natives.

It is a long time since there were such tremendous floods on the west coast.

MAGOON AT HAVANA.

New Provisional Governor of Cuba Is In the Capital.

Havana, Oct. 10.—Charles E. Magoon, the newly appointed provisional governor of Cuba, accompanied by Mrs. Magoon and General Franklin Bell, arrived here Tuesday on the steamer Mascotte. The governor had a long conference with Secretary Taft.

Coincident with the new governor's arrival Secretary Taft gave out a general decree proclaiming amnesty, not only to the rebels, but to all persons charged with political offenses or crimes in any way connected with the revolution. He issued orders covering the attitude of the American marines and soldiers toward the Cuban people.

MARINES REMOVED.

Appearance of Yellow Fever at Cienfuegos the Cause.

Cienfuegos, Oct. 10.—Colonel Barnett ordered the immediate removal of the American marines from the city on account of the appearance here of yellow fever. The marines were taken on board the transports. The yellow fever patient came from Cruces, where two other cases are reported.

SOON TO BE BUILT.

Construction of Line From Kansas City to Denison a Certainty.

Kansas City, Oct. 10.—The Missouri River and Gulf railroad, a Harriman line, which will run from Kansas City to Denison, will be built soon. The charter of the company names seven directors, two of whom have been identified with the Harriman interests—A. L. Berger, attorney for the Union Pacific, and E. F. Swinney, a director in the Chicago and Alton, formerly a Harriman controlled line. The new road will build a branch line from Lehigh, I. T., to Shreveport, and also a branch line from a point in Cherokee county, Kansas, to Joplin, Mo.

FARMERS' CONGRESS.

Remedy of Distribution Faults Chief Mission, Says President.

Rock Island, Ill., Oct. 10.—Eight hundred delegates were present at the opening of the Farmers' National Congress. President Stahl, in his annual address, declared to the farmers that the distribution of products is of unusual importance to the producer, and that while production has been brought to a state of perfection, distribution has been neglected or left in the hands of hostile interests, which have made the agriculturists their prey. He said that the chief mission of the Farmers' Congress is to remedy faults in the system of distribution.

Congressman Ransdell of Louisiana, president of the National Association for the Improvement of Waterways, also spoke on "Water Transportation."

BREVITIES BUNCHED.

Texas Odd Fellows meet next year at Gainesville.

Hon. W. J. Bryan made six addresses in Kansas Tuesday.

By a powder explosion near Tamaqua, Pa., four men were killed and one injured.

By unanimous vote United Spanish War Veterans favor restoration of the army canteen.

Eight sugar rebate indictments were returned by the Federal grand jury at New York City.

At annual meeting at Salt Lake City the board of directors of Union Pacific railroad was re-elected.

Had All but Succeeded In Landing at Providence.

SCHOONER IS SEIZED

By the Merest Chance the Discovery Was Made That a Number of Chinamen Were Upon the Eve of Disembarking.

Providence, Oct. 10.—After having evaded United States immigration and customs officers for more than two weeks the schooner-yacht Frolic, which left Placentia, N. F., with a cargo of contraband Chinese immigrants, was boarded in Providence river early Wednesday and confiscated in the name of the United States government. Two Portuguese members of the crew were placed under arrest, they being the only persons found on board the boat. The two men were arrested on suspicion of being concerned in the smuggling of Chinese into this country, while seventeen Chinese believed to have been passengers on the Frolic were also arrested.

Despite the vigilance of the coast guard and revenue cutters from Eastport, Me., to Cape Hatteras, the schooner came up the harbor without attracting any attention, those who saw her taking her for a fishing schooner. It was by accident that it was discovered she was the Frolic. At an early hour Wednesday morning a man employed at the coal pockets stumbled over two Chinese huddled in a heap on the wharf of the coal yard. The workman reported the occurrence and officers were dispatched to the scene. Within a short time eight Chinese had been captured.

Meanwhile customs and immigration officials had been notified of the affair. Search for Chinese was prosecuted, and before long nine more had been caught. A number of policemen and United States Deputy Marshal Stone boarded the schooner, confiscated the vessel and arrested the Portuguese.

Close on the arrest of the Chinese and confiscation of the schooner came the arrest of two white men found in the vicinity on suspicion of having been concerned in smuggling. Just how many Chinese were on board the Frolic when she left New Foundland is not known, although it is reported there were thirty-three unlawful passengers.

IN SECTIONS.

American Board of Commissioners Have a Busy Day.

Williamstown, Mass., Oct. 10.—From sunrise until late Wednesday evening the delegates attending the annual meeting of the American Board of Commissioners for Foreign Missions, at North Adams, were busy participating in the numerous sessions arranged for the day. It was officially known as "Haystack Centennial Day," and daylight sessions were held in this town, where the foreign missionary movements was started 100 years ago. In front of the memorial monument, which now stands in an open field, many of the delegates gathered at sunrise to take part in the sunrise prayer-meeting, conducted by Rev. Dr. Zwemer of Arabia. At 8:15 there was a students' missionary meeting in Jesus hall. An academic service in Thompson Memorial chapel, under the auspices of Williams college, and a student volunteer service in the Congregational church were held simultaneously and occupied the remainder of the forenoon.

BY THREE BROTHERS.

Each One Performed Ceremony by Which Sister Was Wedded.

New York, Oct. 10.—An unusual feature of the marriage of Miss Elsie Osterhout Myers of Kingston to S. N. Pultz of Poughkeepsie, which occurred at the bride's home in Kingston, was that the ceremony was performed by three brothers of the bride, each of whom took an equal part in it. The brothers are the Rev. Cortland Myers of Brooklyn, Rev. Johnston Myers of Chicago and Rev. Walter Myers of Reading, Mass.

SNOW AND FROST.

First Fall of Former Fell at Cynthiana, Ky., Wednesday Morning.

Memphis, Oct. 10.—The first snowfall of the season was reported Wednesday morning at Cynthiana, Ky.

There was a killing frost at Nashville and vicinity Tuesday night.

Memphis and vicinity had a light frost. Reports from Arkansas and north Mississippi state there was a light frost. It is not thought cotton was damaged.

There was a light fall of snow at Louisville and in the mountain sections of Kentucky Wednesday. This breaks all records for early snowfalls.

A. J. Woods of Beaumont, fireman on a log train, was killed in a railway accident near Odessa, Tex.

Dr. Rhett Goode, a leading railway surgeon, has been elected dean of the Medical College of Alabama at Mobile.

SPIRITED AWAY.

For the Second Time a Negro Boy Es-
capes Being Lynched.

New Orleans, Oct. 10.—To escape
lynching, a twelve-year-old negro boy
known as Jesse James was brought
here from Amite, La., and placed in
the parish prison. The boy was ac-
cused of attempted rape upon a four-
year-old white girl, and it was neces-
sary for the sheriff at Amite to take
him secretly aboard a train to escape
the lynchers. This was the boy's sec-
ond escape from lynching. Immedi-
ately after the crime the boy had been
dragged into the woods by friends of
the family of the outraged child and a
rope had been placed around his neck.
On account of his youth, however, he
was beaten instead of hanged.

HEARNE & DANSBY

FIRST CARRIAGE IN MAINE.

How a Minister Came to Buy It and
Why He Sold It.

The Rev. Francis Winter was a native of Boston and a graduate of Harvard college. He went to Bath early in 1767 and, after preaching on probation for the orthodox church, was invited to settle, which invitation he accepted. He was ordained in the autumn of the same year. He went to Bath on horseback in company with Lemuel Standish. Mr. Winter came from Boston, where he had associated with such eminent men as Adams, Otis and Warren, himself becoming an ardent patriot, taking the lead in the Revolutionary measures adopted in Bath during that memorable period.

Mr. Winter married Miss Abigail Alden in 1768, and it is through her that the Winters of today trace their ancestry back to the "Puritan Maiden of Plymouth."

Three years after the marriage of the Rev. Francis Winter and Abigail Alden they started to visit a sister of Mrs. Winter living in Connecticut and intended to ride all the way on horseback, but Mrs. Winter became so fatigued that Mr. Winter sold one of the horses for a carriage and harness. It was the first carriage that ever came into Maine and was called a chaise. Traveling was so difficult that two negroes were employed to accompany them with shovels and axes to clear the road. Several times the chaise had to be taken apart and lifted over fallen trees. The minister's parishioners thought that it was putting on too much style for their pastor to ride in a carriage, and in consequence Mr. Winter sold it. This was in 1771. It was a two wheeled chaise, the body resting on leather braces, which were attached to wooden springs.—Lewiston Journal.

The Hungarian Crown.

The Hungarian crown, the royal head-dress worn at their accession by all the Austrian emperors, is the identical one made for Stephen and used by him at the time of his coronation, more than 800 years ago. It is of pure gold and weighs nine marks and six ounces (about fourteen pounds avoirdupois). It is adorned with 53 sapphires, 50 rubies, 1 emerald and 338 pearls, but no diamonds, it being a notion of the royal Stephen that diamonds were unlucky.

H. & T. C. EXCURSIONS.

Denver, Col., account Mining Congress, sell October 13 to 16 inclusive; limit October 31. Same rate applies to Pueblo and Colorado Springs.

Buffalo, N. Y., sell October 10, 11 and 12.

New Orleans, account Knights of Pythias, sell October 13, 14 and 15; limit 29th, rate \$14.05.

Leather and Shoes.

The leather that makes the most comfortable shoes and the most lasting as well is the old fashioned tan bark cow leather, greased good and hard every Saturday with tallow fat. Oil is the life of leather, and a shoe should be oiled at least twice a month, as it readily evaporates. The man who walks a great deal should change his shoes every other day if he can afford it, and he should make some sacrifice to do it, as the benefit to his feet will be immeasurable. Shoes should fit the feet well and snugly. The feet should be the last part of a man's anatomy to tire from walking, and they won't if the proper care is taken of them.—Milwaukee Wisconsin.

A Gigantic Spanish Palace.

The "eighth wonder," as it is usually called, is the gigantic palace of the Escorial, which stands in the ancient kingdom of Toledo, Spain. It is confessedly the most wonderful edifice in the world, whether in dimensions or riches. It has 1,860 rooms, 6,200 windows and doors, 80 staircases, 73 fountains, 48 wine cellars, 8 organs and 51 bells. Its circumference is 2,800 feet, or almost exactly a half mile. It was dedicated to St. Lorenzo, the saint who is said to have been broiled on a grid-iron, and on that account its foundations were laid off in imitation of the shape of that kind of a piece of kitchen utensil.

Silhouette.

Silhouette was the name of a French minister who endeavored to raise the revenues by taxing the nobility. In consequence he became very unpopular, and, the fashion of profiles in black coming in about the same time, they were called in derision silhouettes, the nobility claiming that they had their portraits done in black because they were too poor to have a full picture taken.

He Remembered.

Mrs. Jones—Do you remember that night in June, Henry, when you first asked me to marry you? Mr. Jones—If you refer to that first, last, single, solitary and only occasion upon which I ever asked you to marry me, I do—and you never gave me another chance, either.

An Unhappy Medium.

Housekeeper—You're a big, healthy man. Why don't you go to work? Tramp—Lady, I'll tell yer me trouble. I'm an "unhappy medium." Housekeeper—What do you mean by that? Tramp—Well, yer see, I'm too heavy for light work an' too light for heavy work.

He Started It.

"Why are you going about with a lantern and a cynical smile?" asked the bystander. "Don't interrupt me," returned Diogenes. "I am the original investigating committee!"—Washington Star.

BRYAN, THURSDAY
OCTOBER 11

THE MORNING EAGLE

Entered at the Postoffice as second class mail matter

BY CARNES & WALLACE

BRYAN, TEXAS, OCTOBER 11

Bryan's endorsement of Hearst can't make a statesman out of a sensational publisher.

A New York woman suicided because her servant left her; an Illinois woman died from worry over a law suit, and a Mississippi merchant expired from a slap in the face by an irate customer.

Nearly every visitor who comes to Bryan, who is at all interested in Bryan or the A. and M. College, remarks upon the advantages sure to follow the building of the trolley line, and expresses great satisfaction that the problem has at length been solved.

The Beeville Bee says it has been rumored that a new law may be enacted by the next legislature requiring every couple contemplating matrimony to notify the county clerk six months before the license is issued to them. Well hardly; we guess under the constitutional guarantee of "life, lib-

erty and the pursuit of happiness," that the young people will continue to enjoy the privilege of surprising their friends whenever they choose.

A report made by the agricultural department says that water-fowls are steadily diminishing throughout the country and that some species are threatened with extinction. The report deals with the migration and distribution of ducks, geese and swans and says that "these fowls were formerly abundant over the whole United States and their food value was great. They have formed in the past, and should continue to form a valuable asset and important source of revenue to the several states which harbor them."

Mexico does not seem disposed to temporize with trust methods and "corners" on food supplies. A City of Mexico special says: Measures will be taken by the government to prevent hoarding of corn in anticipation of higher prices, and it is probable the duty on foreign corn will temporarily be removed. The government says that there is an abundance of native corn in the graineries all over the country and that the high price is a result of a combination, which is injurious to the great mass of people.

SELLS-FLOTO SHOWS

Claim the Finest Menagerie Ever Seen
An advance notice says: The menagerie of a well regulated tent-institution has always been regarded as the educational division, while the show proper has its object in amusing and entertaining a critical public. Both have their spheres of usefulness in the amusement field, and are equally necessary in promoting each other's interests.

The Sells-Floto menagerie has always been regarded as the standard by which all others are compared. The expense required alone to maintain a menagerie, after the animals have been secured, is enough to stagger the ordinary statistician. In the care of fifty cages of wild beasts and two herds of performing elephants, it is of no consequence or even thought to the average auditor; he pays his money and takes it all in at the cursory glance, well satisfied with it, without one reckoning that half a million dollars would hardly cover what he has just observed.

The student of wild animals will tell you that the lion is the king of animadom, in no sense as treacherous as other members of the cat family. Its manners except when aroused, suggest strength and reserve, indicating great force when pressed into combative action. It is powerful, yet the whole demeanor of this mighty beast is candor personified. Any keeper will trust a lion under ordinary circumstances, because of its fairness in making an attack. Before it springs it invariably gives a warning. While all that is true of the lion, stealth, deceit and treachery are depicted in the leopard.

The most cruel and vicious of all animals is the tiger. His natural hatred for his keeper makes him untamable. They must be well guarded in captivity, for they will even fight each other without apparent cause or excuse.

Monkeys, as a class, are regarded as the most enlightened, and but for their devilishness could be taught to do almost anything but talk. In a way they are almost human, but the average monkey prefers to cut capers all day long rather than to give a thought to anything so serious as to obey anyone. He will play all day, then go to sleep with a look on his face that curiously intimates that he has a hard day's work before him tomorrow, and must not be bothered. However, he is the children's delight, and nature has seemed to place him in the animals kingdom for some reason however frivolous.

The long show program will be of unusual interest to the beholder on account of the many new and startling features that have been added to these great shows for this season's tour. The parade over the principal streets at 10 o'clock this morning will give evidence that a worthy program will be given under the tents both this afternoon and tonight.

On account of the enormous crowds at night, it is respectfully suggested that children go to the afternoon show, where a more comfortable and better view can be taken of the great menagerie.

The big show will be in Bryan today.

Humanity and Machinery.

Machinery is the cornerstone of modern society, the very foundation on which law, science, ethics, the arts, even the state itself, rests. It is so new that we do not yet know its poetry. We do not yet understand. Only two generations have lived beside the highway of steam; only one has seen the Bessemer converter transform the blacksmith into the master builder of ships and towers. The sewing machine, the far speaker, the typewriter, are common things of today, accepted as a matter of daily convenience, and yet are they teachers of the people. Machines that come close to our lives and homes insensibly teach truth, precision, the adjustment of universal laws to human needs, respect for that wise American idea that labor saved is labor released for higher and nobler toil. The machine is the head master of the high school of the race.—Reader Magazine.

CURE CATARRH NOW.

Do Not Wait Until Winter or Disease Will Become Chronic.

Many people in Bryan are beginning to cough and hack with the fall symptoms of disagreeable and offensive catarrh. The tongue is coated in the morning, and they do not sleep well at night on account of disagreeable tickling and dropping at the back of the throat as a result of catarrh. Before the disease becomes chronic they should use Hyomei and get complete freedom from their catarrhal troubles.

If you neglect to treat catarrh when it first comes on, the chances are that it will become so firmly rooted and deep-seated that it will bother you all winter and may become chronic and almost incurable.

The first day's use of Hyomei will show a decided improvement in health, and in a short time there will be no further trouble, and you will be free from catarrh, and coughs and colds will not bother you during the winter.

Remember that Hyomei is sold under an absolute guarantee that it costs nothing unless it cures. E. J. Jenkins has sold a great many outfits, every one with his personal guarantee that it costs nothing unless it cures, and he has seen so many remarkable evidences of the curative powers of Hyomei that he is very glad to continue giving this guarantee with every package. A complete Hyomei outfit costs but \$1, extra bottles, if needed 50c.

ECZEMA THE MOST DISTRESSING AND ANNOYING DISEASE

to which the human flesh is heir, has always been claimed incurable.

A cure at last has been found in the wonderful discovery ZEMO, a clean liquid for external use. ZEMO cures by removing the cause. It draws the germs from under the skin to the surface and destroys them and their toxins, leaving a clean healthy skin.

ZEMO'S record for cures has never been equaled, and it has been regarded as "The world's greatest cure for all diseases of the skin and scalp."

Get a bottle today of your druggist and write to us about your case.

THE E. W. ROSE MEDICINE CO.,
HARRISBURG, ILL., SEPT. 1, 1904.

DEAR SIR: I take pleasure in recommending your medicine ZEMO for the cure of cutaneous eruptions. I had a breaking out on my face caused by poisoning, and a few applications of your medicine cured me.

Yours truly,
W. F. SCOTT,
President First National Bank.

CORRECT CLOTHES FOR MEN

Parks & Waldrop

Perfectly Tailored Suits for Men

Copyright 1906 by Hart Schaffner & Marx

You see from the way this coat looks what perfect tailoring does for clothes, no matter what the attitude, the coat drapes right.

That's what we offer you in Alfred Benjamin and Hart, Schaffner & Marx clothes; perfect tailoring all wool fabrics, correct styles and moderate prices.

Our showing of

Men's Fall Suits

at

\$12.50 \$15.00 \$16.50
\$18.00 and \$20.00

Surpasses every previous effort on the part of this store; every correct style, every imaginable pattern, including the new club checks, the new plaids and stripes, in the new Gun Metal Greys, London Blues, and fancy effects are here to choose from. Not a style or a pattern left out that is worth thinking about. Come in and let us convince you what handsome suits these are. Remember you have a city clothing store right at your door; we offer you the same service, the same complete stock to select from and prices that are far below what they would ask you.

HEAD ON RAIL

Body Was Hid by Weeds and Engineer Did Not See Man.

Beaumont, Oct. 10.—Ben J. Parker, of the first conductors of the Santa Fe on this division, died at the Hotel Dieu as the result of injuries sustained by being struck by a Santa Fe engine near the Treadway canal, about five miles north of the city.

The man was asleep with his head on the rail, his body being hid in the weeds along the right of way, when the engine, running light, came along and hit him, knocking him about five feet from the track. Engineer John Steinhoff was in charge of the engine, and says it was impossible to see the man until the engine was almost on top of him.

DECEYED TO DEATH.

Negro Hackdriver Believed to Have Been Lynched by Own Race.

Texarkana, Oct. 10.—Anthony Davis, a negro hackdriver, was found dead near the Cotton Belt railway roundhouse, half a mile from the business center, at daylight Tuesday morning. It is believed he was lynched by members of his own race, as about 100 were in that vicinity at midnight Monday night. Davis was arrested on charge of attempting to rape a mulatto girl fifteen years old, en route from Baxter, Ark., to Crockett, Tex., to enter school. He was fined and took an appeal. This happened a week ago. There was great indignation among the negroes at the time. Impression Davis was decyded to where he met his death.

Everybody slept but Mother, and she stayed up all night,

Walking the floor with baby, while it cried with all its might.

Now Mother sleeps like Father, and so does baby Nan---

Clothing as New York Proclaims It

If there is a style in New York City that has not reached us, you don't want it. Come in and let us show you our **New Fifth Avenue Suit**. It is a three-button single-breasted sack suit. The coat is more waist shape than most garments. It has a decided flare at the bottom. The lapels are broad and long, with a graceful roll. The coat is creased at the sides, is made with or without vents.

The following are some of the latest colorings for this Fall: Coaching Stripes, Plaids, Club Checks, Newport Slates, Sharkskin Worsted, Balmoral Blues, and others. Conspicuous in our line of Fall Wearables is the Stein-Bloch, Kirschbaum, Rosenwald & Weil. You will never be disappointed if you buy them. They are made right, the styles are correct. The fabrics are reliable.

PRICES \$10.00 to \$25.00

WEBB BROS

BOYCOTT OF GOODS.

Circulars Making This Threat if President is Upheld.

New Orleans, Oct. 10.—Printed circulars threatening that South American countries will boycott goods of American manufacturers who vote for President Roosevelt's principles in the next presidential election have been received by several New Orleans manufacturing firms. The circular, which it is claimed was drafted at Caracas, Venezuela, on Sept. 12, reads, in part: "American manufacturers who vote the Roosevelt ballot in the next presidential election will be excluded from South American trade."

President Roosevelt has said in some recent speeches that the Latin American countries are bound to disappear for two reasons: First, because they are Latin, and second, because they are small."

The circular then says: "The Democratic party is disposed to fraternize with us and treat us on an equal basis."

It is said that 117 boycott stations have already been established, but it does not explain what is meant by boycott stations. The organization is claimed to be on a military basis, entirely independent of South American governments and better organized than the Chinese boycott. The circular calls this organization the "Sublime Brotherhood of Seagulls." Apparently the circular was mailed from San Jose, Costa Rica.

POLICEMEN BURNED.

Mishap Occurs While They Were on Duty at a Fire.

Columbus, O., Oct. 10.—Three policemen were seriously burned Wednesday by an explosion in an empty tenement house near the Capitol hotel, on West Broad street. Policeman Sweeney's clothing caught fire and he plunged into a watering trough. Policemen Casey and Murray were also burned and Otis Kilbourne, driver of a gasoline wagon, was injured. The tenants had moved and in taking out a stove had not stopped up the gas pipe, the escaping gas filling the house. The police entered the house to see what was the matter when the explosion followed.

FRIGHTFUL FALL.

Actress of "The Blue Moon" Company Drops Four Stories.

Chicago, Oct. 10.—Miss Florence McDonald, a member of the chorus in "The Blue Moon" company, now playing at a downtown theater, was killed early Wednesday by falling out of a fourth-story window in the Windsor Clifton hotel. The only witness to the accident was Miss M. de Bohner, a member of the same company. Miss de Bohner told the police that Miss McDonald had come to her room with the intention of eating a light luncheon and that while sitting on the window sill had lost her balance. Miss McDonald was known on the stage as Florence Raymond. Her home was at Brooklyn.

TEETH ENTER SKULL.

Collision Between Baseball Players Results in One's Death.

Rolla, Mo., Oct. 10.—In a baseball game near the county line two young men named Clark and McKee, belonging to the same team, collided with terrific force while trying to catch a ball. McKee was killed almost instantly and Clark was rendered unconscious. Clark was the taller of the two. It was reported that his upper teeth struck McKee in the forehead and were imbedded in the young man's skull and broken off.

FATALLY SHOT.

Alleged Attention to Mrs. O. J. Wright Causes Husband's Deed.

Hoffman, I. T., Oct. 10.—Charles Arthur was fatally shot here by Dr. O. J. Wright. The latter is under arrest. The shooting resulted from the alleged attentions of Arthur to Wright's wife.

Two Killed.

Shreveport, Oct. 10.—By the bursting of a fly wheel at the saw mill plant of the Kingstone Lumber company, located at Kingstone, De Soto parish, twenty-five miles below Shreveport, Engineer W. A. Davis and Sawyer E. C. Wiley were instantly killed.

Seriously Stung.

Fort Worth, Oct. 10.—Harry Wynne was stung by a vinegaroon and was in a serious condition several hours. The insect stung him on the left hand and the entire arm became swollen. He suffered intensely.

Again Advanced.

New York, Oct. 10.—The cotton market opened firm at an advance of 14 to 22 points on higher cables and nervousness over reports of frost at several points in central and western belts.

Two Dead and Five Injured.

Chicago, Oct. 10.—As the result of a blast furnace explosion in the Illinois Steel company's works at South Chicago one man was burned to death, another died and five others were injured.

Dies From Cancer.

St. Louis, Oct. 10.—Cancer of the stomach caused the death of Dr. Max Hempel, aged forty-three years. He was nationally known as a German educator and writer on scientific matters.

Two Cholera Deaths.

Paris, Oct. 10.—A dispatch to Leclair from Rotterdam announces two fatal cases of cholera at Blotbdaul and Oranjouwo.

Passed Comfortable Night.

New York, Oct. 10.—Mrs. Jefferson Davis passed a comfortable night Tuesday night.

DREADFUL AGONY.

Miss Ura Dudley Describes Her Sister's Sufferings.

Toms River, N. J., Oct. 10.—Miss Ura Dudley's testimony at the trial of Dr. Frank Brouwer created a deep impression. Her testimony is deemed highly important by the prosecution. Miss Dudley's description of the sufferings of Mrs. Brouwer after partaking of a dose of medicine prepared by Dr. Brouwer, her husband, was sensational. Following her narrative of the effect of Dr. Brouwer's stimulants the witness gave a dramatic portrayal of Mrs. Brouwer's agony directly after such medicines were given her.

"Her face became blue," said the witness, "he legs and arms drew up and quivered with pain, her jaws set, her toes turned under and she clutched me like a vise."

Witness also testified as to the manner in which Mrs. Brouwer improved when her husband's preparations were ignored and those of the nurse used instead.

Dr. Brouwer never took his eyes off Miss Dudley from the time she went to the witness chair until she left it. His tall, heavy figure at times twitched nervously, but he never lost the remarkable self-control he has displayed since his arrest.

HEARD ARGUMENTS.

Entire Time of the Supreme Court Taken Up in Gross Receipts Case.

Austin, Oct. 10.—The entire time of the supreme court was consumed Wednesday in listening to arguments as to the constitutionality of the Love gross receipts tax law, which was submitted. Railroads applied for an injunction against the operation of the law, which was denied by the trial court. The court of civil appeals, Third district, held the law to be unconstitutional and the state got the case before the supreme court on a writ of error. Assistants Attorney General Hawkins and Pollard and Representative Love argued in behalf of the state, while Judges Garwood, Freeman and Terry appeared for the railroads.

The railroad commission's annual report will show 200 miles of newly constructed railway between July and October and 200 additional by Jan. 1. Proposed mileage for this and the coming year is placed at 1,500.

Receipts of secretary of state's office from September amounted to \$8,545.

MEYER EXPIRED.

Detective Was Shot Twice as He Was Leaving Courthouse.

Houston, Oct. 10.—Shot twice Tuesday night as he was leaving the courthouse, F. P. Meyer, a Houston detective, died Wednesday morning at 6 o'clock. Last June Meyer investigated alleged violations of the liquor laws at Trinity and Groveton and the cases were called for trial Tuesday. At the close of the night session Tuesday night, as Meyer walked out of the courthouse, he was shot in the leg and abdomen. Great excitement exists at Groveton, but no arrests as yet have been made. Meyer was a young man and an excellent officer.

SEEKING HUSBAND.

Georgia Lady and Four Children Come to Texas Looking For Him.

Dallas, Oct. 10.—Mrs. M. C. Taylor and four small children arrived here from Georgia. She states that last week Mr. Taylor sent her a letter dated Dallas to come at once, as he had a good job at his trade of paper hanger. She has been here since Sunday, but is unable to locate her husband. She says he is a Mason, a Maccabee, a Woodman and an Odd Fellow, and in good standing with all four orders.

SEPARATE BOARDS.

Resolutions Favoring Different Medical Examiners Adopted.

Fort Worth, Oct. 10.—Texas Homeopaths and Eclectics in session here adopted resolutions favoring separate examining boards for the different medical schools.

The new officers elected are: Dr. H. B. Styles, Waco, president; Dr. W. L. Freeman Gifford, San Antonio, vice president; Dr. Julia H. Bass, Austin, secretary; Dr. L. Pollock, Fort Worth, treasurer.

SALOONIST ARRESTED.

Alleged Developments in Death of Jack Barry the Cause.

Galveston, Oct. 10.—Developments in the case of Jack Barry, who was found dead in the rear of Billy McCarthy's saloon, caused the arrest of the owner of the saloon by the chief of police on the charge of murder. The dead man had a bottle with carbolic acid in it when found. It was supposed he had committed suicide.

DRAWN TO DEATH.

Old Man Thrown by a Mule and Head Beaten to a Pulp.

Waxahachie, Tex., Oct. 10.—Uncle Pierce Swafford, seventy-two years old, was thrown off a mule. His feet became entangled in plowgearing. He was dragged some distance and his head beaten to a pulp.

Knocked Down and Robbed.

Dallas, Oct. 10.—In the southern part of this county, near Hutchins, a farmer named Knott was knocked down by a negro cotton picker in his employ and robbed of \$10.

Did Not Hurt Cotton.

Denison, Oct. 10.—There was a heavy frost on the lowlands Tuesday night. It did not hurt cotton.

Pleads Guilty.

McKinney, Oct. 10.—L. Tarpley, pleaded guilty to burglary and got five years.

AMERICANS WIN.

Secure First Game in Championship Series by Narrow Margin.

Chicago, Oct. 10.—The Chicago team of the American Baseball league won from the National league pennant winners Tuesday by a score of 2 to 1 in the first game of the world's champion series.

The game furnished a fine sample of modern baseball wherein the fine points of the game are more in evidence than the slugging of other days, but it was an error of puerile character which gave the American league its winning margin.

At 8:30 o'clock in the morning the vanguard of the enthusiasts who had not secured reserved seats lined up in front of the box office of the National league park. By noon, when the gates were opened, several thousand men were waiting, and within an hour and a half most of the persons who expected to see the exhibition were in their seats. Ticket speculators, warned by the early arrest of eight of their number, soon disappeared.

Snow fell several times during the afternoon, and was making a good showing when, at 2:25, play was begun. Only 12,693 persons were present. It had been expected that over 20,000 enthusiasts would be there to

MORDECAI ("THREE FINGER") BROWN.

cheer their favorites, but the coldness of the weather, possibility of rain and fear that seats could not be obtained kept thousands away.

For the first four innings it was machine baseball of perfect type, only one man, Schulte of the Nationals, reaching first base.

In the first half of the fifth, however, Rohe electrified the crowd by a stinging hit down the third base line and under the temporary benches in Schreckard's territory, reaching third base on the hit. After Donohue struck out, Dougherty laid out an easy one half way between pitcher and catcher. Brown scooped up the ball in beautiful fashion and tossed it to Kling. Roche was tearing wildly for the plate, and he got there, for Kling's frost bitten finger refused to close around the ball.

In their half the Nationals went out one, two and three. The next inning the Americans scored again. Altrock walked, Hahn sacrificed, Jones singled to center, but Hoffman's perfect throw caught Altrock at the plate by yards, Jones reaching second on the play. He reached third, when Kling fumbled the ball for a minute, and crossed the plate with the second run of the game when Isbell singled to left.

The Nationals also scored in this inning. Kling was given a pass, and went to second on Brown's single over third. Both advanced a base on Hoffman's sacrifice and Kling scored a moment later on a wild pitch. Schreckard, however, was out on a fly ball, and Schulte perished, Rohe to Donohue, the latter falling flat on his back, but holding the throw in his gloved hand as he fell. Thereafter neither pitcher was in a critical position, and after one hour and forty-five minutes of play Jones caught Steinfeldt's final effort and the crowd flowed into the field.

The pentup enthusiasm of the American league adherents broke out in wild cheering and tooting of horns, while the supporters of the defeated team, for the most part, filed slowly out of the grounds. One crowd captured Rohe and carried him out on their shoulders, while another contingent paid like homage to Altrock.

Elevated and surface cars were crowded with cheering thousands, who yelled themselves hoarse and overflowed into the downtown cafes and hotels to continue the celebration.

PROMISE FULFILLED.

Over Fifty Thousand Dollars Given to Cook County.

Chicago, Oct. 10.—States Attorney John J. Healey Tuesday turned over to Cook county all the fees of his office for the last two years, amounting to \$51,213. Healey's act was in accordance with promises made by him before the election, in which he declared that if elected he would accept the statutory salary of \$10,000 as his compensation, and would turn over all the fees to the county. This was the first time in the history of this county that a state's attorney has surrendered the fees of his office.

GLIDDEN NO MORE.

Inventor of Barbed Wire Fence Dies at Ripe Old Age.

Chicago, Oct. 10.—Joseph H. Glidden, the inventor of the barbed wire fence, is dead at his home in Dekalb, Ill., at the age of ninety-three.

Dies From Burns.

Mansfield, Tex., Oct. 10.—Mrs. John H. Harrison caught her clothing on fire from a lamp about 8 o'clock Monday night and was so severely burned that she died at 1 o'clock Tuesday morning.

THREE KINDS.

Simple, One Dash and Two Dashes in Bailey's Classification.

Fort Worth, Oct. 10.—Senator Bailey addressed 3,000 persons Tuesday night. When he concluded hundreds shook hands with him. After the meeting resolutions endorsing the senator were passed.

Senator Bailey scored his enemies. He said there are three kinds of liars—the simple liar, the one dash liar and the two dash liar. As the next session of congress would be the short one, he said he expected to practice law considerably. Two of the parties he denounced by name and residents of this city. He was introduced by Colonel R. M. Wynne. The senator said in a second primary he would badly defeat opposition. His remarks were wildly cheered.

To Be Sent Out.

Houston, Oct. 11.—H. F. Ring, president of the Good Government club, states that the club will send out 10,000 copies of the recently published open letter from Hon. Vullen Thomas of Waco on the subject of Senator Bailey's alleged connection with the Waters-Pierce Oil company in Texas and St. Louis.

FIVE TERRORISTS HANGED.

Men Put to Death Were Tried by a Drumhead Courtmartial.

Lodz, Oct. 10.—Five Terrorists, sentenced to death by a drumhead courtmartial, were hanged Wednesday morning. Employees of the street railroads, schoolteachers and newspaper employees have joined the men in all the factories who struck yesterday as a protest against trials by drumhead courtmartial.

Rockefeller May Testify.

Findlay, O., Oct. 10.—After hearing arguments for an hour and a half Judge Banker ruled that John D. Rockefeller could testify in Standard Oil company case. This is a victory for the prosecution.

Aged Prelate Passes Away.

Montreal, Oct. 10.—Archbishop Bond, primate of all Canada of the Anglican church, died here Tuesday. He was ninety-one years of age.

A DAZZLING EFFECT.

Old Time Illumination With Lanterns and Candles.

In these days of electric lights, with all their capabilities for brilliant illumination, it is amusing to read what the subjects of George II. considered a dazzling effect. A Frenchman visiting in London at the time of the coronation of that monarch in 1727 writes enthusiastically in praise of the lighting of the city as well as of a banquet display.

"Most of the streets," writes M. Saussure, "are wonderfully well lighted. In front of each house hangs a lantern, or large globe of glass, inside of which is placed a lamp which burns all night. Large houses have two of these suspended outside the doors by iron supports. Some even have four."

How one arc light would have dazzled the good people of that day!

"When the coronation procession entered Westminster hall," the writer continues, "the light of day was beginning to fade. Forty chandeliers, in shape like a crown, hung from the ceiling, each having thirty-six wax candles."

"On the king's appearance all suddenly lighted, and every one in the room was filled with astonishment at the wonderful and unexpected illumination. Little cords of cotton wool, imperceptible to the eye, saturated with sulphur of saltpeter, spirits of wine and other ingredients, had been prepared and arranged so as to carry the flame rapidly from one candle to another. The arrangement had been so skillfully prepared that scarcely a candle failed to take fire."

For Dosing Oneself.

A physician recommends rochelle salts for amateur doctoring. He says that it is an excellent thing, several times a day, to take as much of the salts as may be put on a cent in a little water. That will sweeten the stomach and act as a very desirable spring medicine. He also speaks highly of soda, having no patience with those timid people who have an idea that it is a dangerous dose, doing some vague harm to the coating of the intestines.

"Why, everything we eat, almost, has soda in it," he cried in disdain. "It is an admirable thing to take half rochelle salts and half bicarbonate of soda, as directed, several times a day. I know of few gentler and still more beneficial general medicines."

Savages and Snuff.

The habit of snuff taking has been confirmed among savage tribes for ages past. In South Africa it is used among Swazis, Basutos and Matabeles. Every Zulu today, even in towns, carries a little square box suspended around his neck by a piece of string or gut, and the snuff spoon (for they do not indulge in the homely "pinch"), carved out of sheep's bone, often ornamented with intricate geometrical designs and for convenience carried hanging downward through a slit in the lobe of the ear. The Zulu regards the lobe of his ear as a useful receptacle for various small articles he meets with. The umfaan, or house boy, universally met with in Natal, has a penchant for safety pins, which have to be carefully hidden from his sharp eyes. Even then he is usually to be seen, after going through the rooms, with a string of these pins suspended from each ear until they reach his shoulders.
